December 5, 2008

Dear Ed, Tony, Mike and Bob

Thank you for appearing at the California Traditional Music Society's House Concert on Saturday, November 1, 2008.

What a wonderful night! This was your second appearance at one of our House Concerts and, as before, it was the best attended concert of the season.

Your professionalism was apparent from the first song. And your good humor and your ability to connect with an audience was soon apparent.

As you know CTMS is made up of people who are very involved with traditional folk music, many are amateur musicians, and all of them love to sing - as you found out at your first concert with us. I can't recall any other performer that gets the audience involved as much as you do. At each of your performances most of the audience sang along with most, if not all, the songs.

Everyone I talked to after the show told me that they had a great time.

The Folk Collection has a standing invitation to return any time you would like.

Chris Warber
Artistic Director
