May 15, 2007

Dear Ed, Tony, Mike and Bob

Thank you for appearing at the California Traditional Music Society's House Concert on Saturday, April 21, 2007.

What a wonderful night! It was the first complete sell out we have had.

Your professionalism was apparent from the first song. And your good humor and your ability to connect with an audience was soon apparent.

As you know CTMS is made up of people who are very involved with traditional folk music, many are amateur musicians, and all of them love to sing - as you found out. I don't remember another concert where so many in the audience sang along with most, if not all, the songs. You guys really got the audience involved. From all the reports that I got, everyone had a great time.

The Folk Collection has a standing invitation to return any time you would like.

Chris Warber
Executive Director
