Dear Ed,

This is a long overdue letter to the Folk Collection to say thank you for an incredible concert this past summer and for being a part of our ten week Summer Music Festival.

Every aspect of our collaboration from start to finish was highly professional as well as the bands presence on stage. Concert goers were particularly impressed by the quality and variety of your music, your talented vocals, and how you related to the audience.

Thanks again for helping the Town of Yucca Valley score some big points with its community! We hope to be working with Folk Collection again.

Sincerely,

Candy Drake
Recreation Coordinator
